

Worksheet

No.10 Future of world

★First let's learn the contents of the page!

- "Kyoto Protocol" is one of the frameworks related to climate change.
- The Kyoto Protocol has some problems, such as whether America is withdrawing or that China, India, etc. have not decided specific numerical targets.
- "Paris Agreement" is a new framework replacing the Kyoto Protocol.
- The Montreal Protocol is the framework for the ozone layer.
- There is a place for the leaders of each country and the environmental minister to talk like "G7 Toyama Environment Ministers Meeting".

Let's think about it.

In the Paris Agreement, what kind of things should be careful and decide goals and regulations?

On the next page, there is a free writing column.

★Free writing column

★Let's review

(1) In the Kyoto Protocol, Japan and others decided , but they did not decide in China and India.

(2) In the Kyoto Protocol, has withdrawn from the process. This country was the world's greenhouse gas emissions country at that time.
