

Let's think (2)

Name _____

Following the Social consideration pages, let's look for consideration to allergy around you.

Organization/company/institution

Kewpie

What kind of things do they do?

Series of items not including specified raw materials 7 items.

Figure and picture

What did you think good for this?

By grouping non allergic products into a series, I thought that it is very kind to parents who are busy with care for children because they can quickly find non allergic foods that they want from among many options.

Conversely, what did you think should be improved?

If including some allergen of 27 items, it needs displaying that largely.

An example of this answer is introduced in To “Coexist”>Examples of Social consideration for allergies pages.
