## to form a smart city

Area to be examined

Makuhari Area

What kind of city would you like? What technologies do you incorporate?

Makuhari Shintoshin District is a developed city with many buildings and large convention facilities. In addition, since there are many companies, the daytime population is expected to be large. The bus line connecting Makuhari-hongo Station on the JR Sobu Line and Kaihimmakuhari Station on the JR Keiyo Line runs very frequently from morning to evening, and especially during the morning rush hours, there are buses every less than a minute. It is also expected that bus transportation is partly relied on, as seen in the fact that articulated buses are running.

Therefore, we propose the introduction of self-driving buses in Makuhari Shintoshin.

There are many wide roads in Makuhari Shintoshin ...
