

# Pet's aren't Just Cute !

## Review worksheet

These are questions about "Problems" and "Pet Owners".

Alright! I'll do my best!

\*Please select the character from the alphabets beneath the sentences if the question number is enclosed in ○. For others, you have to write the answer by yourself.

### Problems

In Japan, the number of euthanasia is about (①) animals every year. Compare to before, the number of euthanized animals is (②). Pets that don't have their owners are looked after by (3) and if they can't find the new owner there, they will be killed. This situation is called (4).

Some owners breed cats or dogs too much and they will not be able to take care of them. This situation is called (5). The common reason for this situation is failing to have their pet undergone (6). Animals that are rescued by (5) are taken in by public health centers and if they can't find new owners, they also will be killed.

Compare to before, the number of animal abuse is (⑦). Animal abuse is separated into two kinds. One is (⑧) such as hitting or kicking and the other is (⑨) such as not feeding food.

Pet shops are used to kill unsold animals. However, it is illegal now so some malicious dealers accept such pets for (⑩). This is a big problem in Japan.

A, 3000 B, 30000 C, increasing D, decreasing E, Intentional Abuse F, money G, Neglect

### Pet Owners

To avoid too much breeding, it is required to undergo spay/neuter surgery. It is not only to prevent breeding but also to prevent (11) or relieve (12). After surgery, owners should care about their pets' health such as (13) which came from a lack of workout.

In case your pets get lost, it is required to implant (14). the (14), owners can find their

pets easily. For example, when disasters occur.

Components of dog foods are (15) that of cat foods. So it is important to choose the foods which match your pets.

(16) used to be a big problem in Japan. Infected animals(included humans) are to die almost (17)%. Rabies are (18) in Japan. Dogs' owners have to have their dogs injected and attach the injection certificate issued to the dog.
